Dear Organizers,

Sorry for the so long delay with my reply. My photo is attached. My brief biography is below:

Prof. Tribelsky received his MS from Lomonosov Moscow State University in 1973, a PhD from Moscow Institute of Physics and Technology in 1976, and a Dr. of Sci. (habilitation) from Landau Institute in 1985. He received numerous national and international awards: Leninsky Komsomol Prize (1979); COE Professorship, the University of Tokyo (2006, 2008) and Kyushu University (2007), Japan; Honorary PhD, Yamaguchi University, Japan (2016), etc. Now he heads a laboratory at Lomonosov Moscow State University. His field is theoretical and mathematical physics. Presently, his interest lies in subwavelength optics. He authorizes several books, book chapters, review articles, and more than 100 research papers. See <https://polly.phys.msu.ru/en/labs/Tribelsky/> for more details.

Best regards,  
Michael I. Tribelsky

Nano 2023 писал 2023-11-27 08:20:

Dear Dr. Michael I. Tribelsky,

Greetings!

Much thanks for your prompt response and we're very glad to have you as an Organizing Committee Member of the "9th European Congress on Advanced Nanotechnology and Nanomaterial's". Please do send us your Biography (150 - 200 words) along with your photograph to update in our website.

Kindly find the below Roles and Responsibilities of Organizing Committee Member (OCM)

OCM Roles & Responsibilities:

- \* You are welcome to suggest any tracks/sessions of the conference.
- \* To review the Abstracts of conference speakers of their interest
- \* To organize a Workshop/Symposium at the conference
- \* To suggest potential Speakers/Delegates for the conference
- \* Giving suggestions in getting Sponsors and Exhibitors
- \* To give suggestions to increase the scope of the conference.

Please do let me know for any further assistance.

Look forward to hearing from you.

Thanks & Regards,  
Cathy Allen

Subject: Re: Enroll at Nano 2024 and Plan Your Trip to Amsterdam, Netherlands.

Dear organizers,

I want to express my gratitude for the invitation to your conference.

Unfortunately, I am unable to attend in person. Nevertheless, I would be pleased to deliver an online talk highlighting recent advancements in electromagnetic field subwavelength tailoring using nanoparticle resonant light scattering and related topics.

Additionally, I am open to the possibility of joining the organizing committee if it is desired.

However, since I am receiving many invitations and my lab budget is limited, I would appreciate waiving my full registration fee. Otherwise, I am forced to decline your kind offer, much to my regret.

I look forward to your response.

Best regards,

Michael I. Tribelsky
